1	NAC English Enrichment Courses for F.1-3 : Experienced tutors designed the course's 7-session curriculum, and our school's English teachers reviewed the materials to ensure they are appropriate for our students.	The courses introduce students to the specific style and expectations of local school exams early, reducing fear and building essential test-taking skills for their crucial junior secondary years. Also, success in English exams leads to better report card grades, which boosts their confidence and helps them settle into their new schools more smoothly alongside local classmates.
